When you contact us for support, we probably ask for information such as:

- ❖ name or nickname;
- ❖ e-mail address;
- ❖ platform you are playing on;
- ❖ problem description;
- ❖ language;
- ❖ player ID or we might ask for further information if necessary to respond to your query.

If you choose to use communication features in Services that allow you to communicate or share information with us or other players, then we would collect information on what is communicated or shared. This may include your in-game actions like:

- ❖ your messages to the Service (such as chat logs and player support tickets);
- ❖ other data you choose to give us (such as data to identify a lost account);
- ❖ participation in player groups;

We also collect data about the ways in which you use and interact with our Services, such as when and for how long you play a game, game features and other players you interact with, purchases you make, progress or levels you achieve, and other gameplay activities.

You may subscribe to our newsletter to receive information from us about changes, news, promotions, events or information regarding updates and support of our game, as well as information about products and our other games. Use of the newsletter service is entirely voluntary and depends on:

- ❖ the User's provision of his/her e-mail address,
- ❖ your consent to provide the newsletter service,

Each of the above mentioned consents may be withdrawn at any time, without affecting the legality of the processing performed before its withdrawal.

We process your personal data on the basis of a legitimate interest (Article 6(1)(f) GDPR in conjunction with recital 47 GDPR).

On that ground (point (b) of Article 6 (1) GDPR) we collect and process only that data which is necessary to render Services or provide you with the facilities of the Services you ask for. We process these data for the period of duration of the agreement.

You may at any time opt-out from receiving these types of communications by turning them off at the device level through your settings.

DO WE PROCESS YOUR DATA AUTOMATICALLY (INCLUDING BY MEANS OF PROFILING)

When you use our Services, we collect data about your interactions with the Services and with other players inside the game via server log files.

To show you personalized advertisements, adjusted to your preferences or needs, to keep our Services safe, and to analyze and monitor your use of our Services for the purposes e.g. of our games improvement, we may automatically profile and segment all collected data of yours (the information you provide may be associated with your player ID, IP address or device ID). We may also make marketing decisions to present you with our personalized offers and individual benefits. We prepare them by automatically analysing your data and behaviour, and on that basis we make automatized decisions, e.g. on a content of an offer and/or whether to make you a given (special) offer or not. The legal basis for such a type of data processing is the binding agreement for rendering services (performance of the agreement) and our legitimate interests.

If your data processing (profiling) is based on our legitimate interests, you have the right to object, on grounds of your particular situation, at any time to such processing of your data. Then, Ten Square Games has no rights to process (profile) your data unless it demonstrates compelling legitimate grounds for the processing which override the interests, rights and freedom of yours or processing is necessary for establishment, execution or defence of our legal claims.

If we use your data to make profiling for the purposes of direct marketing, you have unconditional right to object to such processing at any time. In such an event, the personal data of yours shall no longer be processed for such purposes, regardless our interests, rights and freedom.
